

# 2017 Driver License and ID Card

## WASHINGTON NEW LOOK AND SECURITY FEATURES

Washington is issuing newly-designed driver licenses and ID cards to better protect residents from identity theft. The cards will have a different look and will contain state-of-the-art security features that go further to prevent fraud and identity theft, a key mission of the Department of Licensing.

You won't need to take any special steps if you have a valid license or ID card. The new cards are issued when you apply for a renewal or replacement. Driver licenses and ID cards with the previous design will remain valid until their normal expiration date. All new driver licenses, permits and ID cards will have the new format with additional security features that will assist retailers, banks, law enforcement and government agencies to verify that the cards are authentic.
